+92 325 7131099 @ syed.muaaz333@gmail.com
Lahore, Pakistan
Portfolio : Coming Soon

Principal Software Engineer with 10+ years of experience building real-time interactive systems, multiplayer platforms, and scalable backend services. Experienced in Unity, C, Node.js, and .NET, with strong expertise in client-server architecture, networking systems, and cloud-integrated applications.

Skills

Programming	C#, C++, TypeScript, JavaScript, Lua
Game Engines	Unity (Primary Engine), Unreal Engine (Working Knowledge)
Unity Ecosystem	ECS, Addressables, Dependency Injection, Scriptable Objects, Editor Tooling, Profiler Mastery, Shader Graph, Optimization
Multiplayer	Photon (PUN/Fusion/Quantum), Mirror, Colyseus, Client-Server Architecture
Backend	Node.js, .NET, REST APIs, WebSockets, Microservices
Cloud	AWS, Docker, Scalable Backend Infrastructure
Architecture	Distributed Systems, Event-Driven Systems, Scalable System Design
Engineering	SOLID, OOP, Design Patterns, Clean Architecture
Tools	Git, JIRA, Agile/Scrum

Professional Experience

Present – Dec 2022 — **Technical Lead, Salvay, Remote (USA)**
- Lead architecture and development of scalable real-time applications.
- Design system architectures and development pipelines.
- Guide engineering teams through architecture and implementation decisions.
- Collaborate with international teams to translate product requirements into scalable solutions.

Real-Time Systems | Architecture | Team Leadership | Product Delivery

May 2025 – Dec 2020 — **Principal Software Engineer, CLV Technologies, Lahore, Pakistan**
- Designed scalable interactive software systems for international clients.
- Led proof-of-concept development to validate architecture feasibility.
- Built client-server systems, multiplayer frameworks, and backend integrations.
- Participated in architecture design and cross-team technical planning.

Client-Server Systems | Multiplayer | Backend Integration | Technical Discovery

Dec 2020 – Dec 2019 — **Senior Game Developer, Gaminations, Lahore, Pakistan**
- Developed gameplay systems and mobile applications using Unity.
- Implemented performance optimizations and gameplay mechanics.
- Contributed to Agile development workflows and Git collaboration.

Unity | Mobile Games | Optimization | Agile

Nov 2019 – Jan 2019 — **Senior Game Developer, United We REACH, Pakistan**
- Developed Unity-based educational mobile applications.
- Implemented gameplay systems and UI workflows.
- Collaborated with cross-disciplinary engineering teams.

Unity | Educational Apps | UI Systems | Team Collaboration

Jun 2017 – Dec 2016 — **Game Developer, Center for Game Design, University of Central Punjab**
- Developed educational interactive applications using gameplay-driven learning.
- Led a small development team for learning software development.

Interactive Learning | Game Development | Team Leadership

Education

BS Computer Science	University of Central Punjab
